

PlusFeed

from ComStock

The Competitive Edge

Help guide your business to success by delivering the fast, reliable and comprehensive global financial market data and news available with ComStock's PlusFeed.

PlusFeed, ComStock's high-speed, digital datafeed, delivers access to the real-time and near-time information you need to power your trading and internet applications.

Tailored for financial institutions and redistributors wishing to display market data, PlusFeed can help you stay ahead of the competition by bringing the world's major markets right to your fingertips.

Global Market Data

PlusFeed integrates real-time data from over 350 sources and exchanges worldwide, covering in excess of 2,300,000 instruments, with an extensive coverage of the European, North American, Asia Pacific and South American markets.

Data includes information on:

- Equities
- Derivatives
- Fixed Income
- Foreign Exchange
- Money Markets
- Commodities
- Energy
- Funds
- Market Depth

Global News Coverage

PlusFeed also offers comprehensive global news coverage, including a wide range of local language services, from a host of news sources:

- Dow Jones
- AFX
- COMTEX News
- Oster Dow Jones
- Xinhua Financial News
- Platts Commodity News
- Standard & Poor's MarketScope

Value Added Services

In addition to real-time data, ComStock also provides a range of complementary value added services:

- Global Fundamental Data
- Corporate Actions Records
- Historical Data
- Proprietary Analysis and Commentary
- Consensus Forecast Earnings

Superior Performance

ComStock's state-of-the art ticker plant and IP based data distribution model are designed to process and deliver data with a minimum of latency, making ComStock the ideal provider for data applications where speed is crucial.

Maximum Reliability

PlusFeed delivers reliable market data and news. With PlusFeed's superior technologies, you receive the data you need, the instant you need it.

ComStock IP4 distribution network includes fully redundant and geographically diverse ticker plant facilities in Europe and North America and aggregation points in Sydney, Singapore, Tokyo, Taiwan, Korea and Hong Kong to help ensure data quality and reliability regardless of data volume or market conditions.

PlusFeed Delivery

Leased Line - From data centres all over the world, TCP/IP datafeed leased lines can be installed to the customer site.

Satellite – ComStock's premier high-speed satellite network delivers speeds of up to 1.5 Mbps and broadcasts data to a dish that is installed at the customer's site by ComStock's appointed agents.

PlusFeed VPN – PlusFeed VPN is ComStock's high-speed digital datafeed delivered via the internet. Designed for quick and easy access, PlusFeed VPN uses Virtual Private Network technology, eliminating the need for hardware installation at the customer's site.

Custom Developer Support

ComStock offers a team of developer support staff dedicated to assisting you throughout the integration process.

ComStock's support staff will provide:

- Sample Code in C, C++, Java, and Perl
- Product Specific Developer documentation
- Notifications on product changes and additions to the ComStock feed via email
- Sample data via FTP and/or live CSP access over the internet
- Several stress-testing tools
- Telephone support and troubleshooting

Business Partners

ComStock also has strategic alliances with a wide range of third party software providers, which offer turnkey solutions.

Select one of more than 30 popular software platforms which already interface to PlusFeed.

Some of the more popular applications are:

- TIBCO
- Triarch RMDS
- Caplin Systems
- Townsend Analytics
- Aspen Graphics
- Neovest
